JOURNAL OF
Inorganic Biochemistry

Volume 48, Number 1 1992

Contents

R. CHANDRA, R. BERI, and A. SARKAR (Delhi, India)
Antitumor Activity of Some Metal Complexes: Effect on Hepatic DNA, RNA, and Protein Synthesis in Rats Bearing Transplanted Tumors by Dalton's Lymphoma Cells **1**

P. A. M. WILLIAMS and E. J. BARAN (La Plata, Argentina)
A Spectrophotometric Study of the Interaction of VO^{2+} With Adenine in Nucleotides **15**

R. W. LARSEN (Pasadena, California, U.S.A.), D. J. NUNEZ (Albuquerque, New Mexico, U.S.A.), J. MACLEOD, A. K. SHIEMKE, S. M. MUSSER, H. H. NGUYEN (Pasadena, California, U.S.A.), M. R. ONDRIAS (Albuquerque, New Mexico, U.S.A.), and S. I. CHAN (Pasadena, California, U.S.A.)
Spectroscopic Characterization of Heme A Reconstituted Myoglobin **21**

S. MANGANI (Siena, Italy) and L. MESSORI (Florence, Italy)
EXAFS Studies on Copper Transferrin **33**

K. KOCHMAN, A. GAJEWSKA (Jablonna, Poland), H. KOZLOWSKI (Wroclaw, Poland), E. MASIUKIEWICZ, and B. RZESZOTARSKA (Opole, Poland)
Increased LH and FSH Release From the Anterior Pituitary of Ovariectomized Rat, In Vivo, by Copper-, Nickel-, and Zinc-LHRH Complexes **41**

P. ASCENZI (Turin, Italy), M. COLETTA (Camerino, Italy), A. DESIDERI (Messina, Italy), F. POLIZIO, A. BERTOLLINI, R. SANTUCCI, and G. AMICONI (Rome, Italy)
Effect of Bezafibrate and Clofibric Acid on the Spectroscopic Properties of the Nitric Oxide Derivative of Ferrous Human Hemoglobin **47**

B. LADEŠIĆ, D. KANTOCI, H. MEIDER, and O. HADŽIJA (Zagreb, Croatia)
Complexes of Fe(III) With Amino Sugars and Small Glycopeptides **55**

H. MANSURI-TORSHIZI, T. S. SRIVASTAVA, S. J. CHAVAN, and M. P. CHITNIS (Bombay, India)
Cytotoxicity and DNA Binding Studies of Several Platinum (II) and Palladium (II) Complexes of the 2,2′-Bipyridine and an Anion of 2-Pyridinecarboxylic/2-Pyrazinecarboxylic Acid **63**

T. BRITTAIN (Auckland, New Zealand) and C. GREENWOOD (Norwich, United Kingdom)
Complex Formation Between the Copper Protein, Azurin and the Cytochrome *c* Peroxidase of *Pseudomonas Aeruginosa* **71**

B-J. ZHANG, S. J. SMERDON, A. J. WILKINSON, and A. G. SYKES (Newcastle upon Tyne, United Kingdom)
Oxidation of Residue 45 Mutant Forms of Pig Deoxymyoglobin With $[Fe(CN)_6]^{3-}$ **79**

Volume 48, Number 2 1992

Contents

V. VENKATA RAMANA, V. J. THYAGARAJU, and K. SIVARAMA SASTRY (Hyderabad, India)
Chromium Complexes of Uric Acid—Synthesis, Structure, and Properties **85**

J. BARBAS, V. SANTHANAGOPALAN, M. BLASZCZYNSKI, W. R. ELLIS JR., and D. R. WINGE (Salt Lake City, Utah)
Conversion in the Peptides Coating Cadium:Sulfide Crystallites in *Candida Glabrata* **95**

G. S. MAKOWSKI and F. W. SUNDERMAN JR. (Farmington, Connecticut)
The Interactions of Zinc, Nickel, and Cadium with *Xenopus* Transcription Factor IIIA, Assessed by Equilibrium Dialysis **107**

L. GASQUE, R. MORENO-ESPARZA, L. RUIZ-RAMÍREZ (Universidad, México)
Stability of Ternary Copper and Nickel Complexes With 1,10-Phenanthroline **121**

M. A. DÍAZ DÍEZ, F. J. GARCÍA BARROS, E. S. REY, and C. V. CALAHORRO (Badajoz, Spain)
Coordination of Divalent Transition-Metal Ions to the α-Amino Acid 2-Amino-2-Deoxy-D-Glycero-D-Gulo-Heptonic Acid in Aqueous Solution **129**

A. CAUBET, V. MORENO (Barcelona, Spain), E. MOLINS, and C. MIRAVITLLES (Cerdanyola, Spain)
Methionine and Histidine Pd(II) and Pt(II) Complexes: Crystal Structures and Spectroscopic Properties **135**

P. R. BONTCHEV, H. KADUM, B. EVTIMOVA, C. NACHEV, E. ZHECHEVA, D. MEHANDJIEV, and D. IVANOV (Sofia, Bulgaria)
Copper(II) Complexes of (1-[Isopropylamine]-3-[1-Naphthyloxy]-2-Propanol) (propranolol) **153**

Volume 48, Number 3 1992

Contents

C. NAVARRO-RANNINGER, P. A. OCHOA, J. M. PÉREZ, J. H. RODRÍGUEZ, J. R. MASAGUER, and C. ALONSO (Madrid, Spain)
Platinum Complexes of p- and m-Aminobenzamidine. Synthesis, Characterization, and Cytotoxic Activity **163**

E. GAGGELLI (Siena, Italy), A. MACCOTTA (Potenza, Italy), and G. VALENSIN (Siena, Italy)
NMR Investigations of Mn(II)-Leucine-Enkephalin Complexes in $[^2H_6]$-DMSO Solution **173**

D. L. ENG-WILMOT (Winter Park, Florida), J. P. ADJIMANI, and D. VAN DER HELM (Norman, Oklahoma)
Siderophore-Mediated Iron (III) Transport in the Mycelia of the Cultivated Fungus, *Agaricus Bisporus* **183**

X. ZHICHENG, S. ZIYONG, Y. ZHIHAO, T. WENXIA, and Z. DEXU (Nanjing, China)
Further Studies on the Interaction between Cytochrome *c* and K_2PtCl_4 **197**

E. H. SERPERSU, L. L. SUMMITT, and J. D. GREGORY (Knoxville, Tennessee)
Inactivation of Yeast Phosphoglycerate Kinase by Cr-ATP Complexes and Its Implications on the Conformation of the Enzyme Active Site **203**

Q. XU and A. R. KHOKHAR (Houston, TX)
Synthesis and Characterization of N-Methyliminodiacetato *Trans-R,R-*, *Trans-S,S-*, and *Cis*-1,2-diaminocyclohexane Platinum(IV) Complexes: Crystal Structure of Chloro(*trans-R,R*-1,2-diaminocyclohexane) (N-methyliminodiacetato)platinum(IV) Chloride **217**

M. MAEDA, M. TSUNODA (Nagoya, Japan), and Y. KINJO (Okinawa, Japan)
Coordination of Mercury(II) to Amino Acids under Physiological Conditions **227**

H. KOZŁOWSKI, T. KOWALIK-JANKOWSKA (Wroclaw, Poland), A. ANOUAR, P. DECOCK (Villeneuve, France), J. SPYCHALA, J. ŚWIATEK (Wroclaw, Poland), and M. GANADU (Sassari, Italy)
Famotidine, the New Antiulcero-Genic Agent, a Potent Ligand for Metal Ions **233**

Volume 48, Number 4 1992

Contents

T. J. EGAN, S. R. BARTHAKUR, and P. AISEN (Bronx, New York)
Catalysis of the Haber-Weiss Reaction by Iron-Diethylenetriaminepentaacetate **241**

S. MAZZA, M. ORCESI, C. PELIZZI, G. PELIZZI, G. PREDIERI, and F. ZANI (Parma, Italy)
Synthesis, Structure, Antimicrobial, and Genotoxic Activities of Organotin Compounds with 2,6-Diacetylpyridine Nicotinoyl- and Isonicotinoylhydrazones **251**

M. M. SHOUKRY (Giza, Egypt)
Potentiometric Studies of the Complex Formation Between Trimethyltin(IV) and Some Selected Amino Acids **271**

A. DESSÌ, G. MICERA, D. SANNA, and L. S. ERRE (Sassari, Italy)
Vanadium(IV) and Oxovanadium(IV) Complexes of Hydroxamic Acids and Related Ligands **279**

B. GULANOWSKI, J. ŚWIĄTEK, and H. KOZŁOWSKI (Wroclaw, Poland)
Impact of Chromium Ions on Nucleoside Triphosphates and Nucleic Acids **289**

T. SAKURAI and H. MURAYAMA (Ishikawa, Japan)
Rhus Succedanea Peroxidase and Its Compounds I and II **299**

J. KAUR and G. S. SODHI (Delhi, India)
Diuretic Activity of Organomercury(II) Complexes of Theophylline and Theobromine **305**

Author Index **311**

Subject Index **313**
